COMMENT “AUDIT” GUIDE

Meta ads ka 5-minute audit

5 numbers, upar se neeche check karo, aur Claude ka full audit prompt. Agency ko call karne se pehle.

Tumne “AUDIT” comment kiya tha, ye rahi guide 🎁 · @aiwith.om · Oct 2026

Setup: columns

Ads Manager → Columns → **Customize columns** → ye add karo aur preset save karo ("My Audit"):

Metric	Matlab	Kya batata hai
CPM	1,000 impressions ka kharcha	Audience kitni mehngi/competitive hai
Link CTR	Ad dekhne walon mein se kitno ne link click kiya	Ad scroll rok raha hai ya nahi
CPC (link)	Ek click ka kharcha	Traffic kitna mehnga
Cost per purchase	Ek order ka kharcha	Sabse zaroori 👑
ROAS	₹1 kharch pe kitni sale	Overall profitability

Diagnosis: upar se neeche

Symptom	Masla kahan	Pehla fix
CPM bahut high	Audience / season / creative fatigue	Audience broad karo, naya creative
CTR kam	Ad (hook, visual, offer)	Pehle 3 second ka hook badlo, 3 naye creatives test
CTR theek, purchase kam	Website / offer / price	Landing page speed, mobile checkout, offer clarity
Add to cart hai, purchase nahi	Checkout	Shipping cost, payment options, trust badges
ROAS gir raha	Frequency / fatigue / margin	Frequency dekho, creatives refresh, AOV badhao

> 💡 Apne benchmarks khud banao: pichhle 30–90 din ke best ad sets ke numbers hi tumhara "normal" hain. Industry averages har business pe fit nahi hote.

> ⚠️ **1 din ka data dekh ke faisla mat karo.** Kam se kam 7 din (aur learning phase khatam hone do).

Claude audit prompt (full)

Ads Manager se last 14–30 din ka report export karo (campaign + ad set + ad level, upar wale columns + frequency, add to cart, checkouts initiated). Claude mein upload karke:

01 Funnel audit

COPY ⧉

```
Tum ek senior Meta ads analyst ho. Attached mere Meta Ads Manager export hai (last [14/30] din).
Business: [kya bechte ho], AOV ~₹[X], target cost per purchase ₹[Y], margin ~[Z]%.

1) Har campaign ka funnel table banao: CPM → Link CTR → CPC → add to cart rate → purchase rate
→ cost per purchase → ROAS.
2) Har campaign ke liye batao funnel KAHAN toot raha hai (ad / audience / website / checkout) aur
kyun.
3) Top 3 ads jo budget kha rahe hain par result nahi de rahe.
4) Top 3 winners aur unme common kya hai.
5) Next 7 din ka action plan: kya band, kya scale (20% steps), kya test. Har action ke saath
expected impact.
Assumptions alag likho. Agar data kam hai to saaf bolo.
```

02 Creative ideas from winners

COPY ⧉

```
Mere top 3 ads ye hain: [hook/copy/visual describe karo + metrics]. Inke pattern se 5 naye ad
concepts do: hook (pehle 3 sec), visual, copy, CTA. Hinglish audience, mobile-first.
```

⚠️ Export mein customer ki personal info mat daalo; aggregated numbers kaafi hain.
